

Estrous Cycle:

What is the difference between estrus and estrous?

What are the different phases of the estrous cycle?

What are the two stages in the Follicular Phase?

What are the two stages in the Luteal Phase?

Types of Estrous Cyclicity	Definition	Species
Polyestrus		
Seasonally Polyestrus		
Monoestrus		
Anestrus		

--	--	--

What are some reasons why a female may not be cycling?

What is the dominant structure and hormone of the Luteal Phase?

What is the dominant structure and hormone of the Follicular Phase?

What is the purpose of FSH and LH relative to the estrous cycle?

What is the purpose of Estrogen and Progesterone relative to the estrous cycle?

Stage	Main Hormone and Dominant Structure
Proestrus	
Estrus	
Metestrus	
Diestrus	

What happens in the Proestrus stage?

What happens in the Estrus stage?

What happens in the Metestrus stage?

What happens in the Diestrus stage?
