

## **Luteal Phase**

What is the difference between Luteinization, Luteolysis, Luteolytic, and Luteotropic?

What are the two stages that compromise the luteal phase?

What do the theca and granulosa cells transition into?

How does the hormone profile change during the luteal phase?

What are the two phases in which Luteolysis occurs?

Cell Type	Receptor	Production of..
	PGF2a	
	Oxytocin	

What are the two cell types in the CL and what are the differences between them?

What are the steps of Progesterone Secretion?

Where does Progesterone cause an effect?

What are the steps of PGF2a signaling in luteal cells?
